Bootstrap
React.js

BUILD TOOLS:

Ddev
Docker
Gulp.js
OrbStack

UX / UI:

DESIGN:

Adobe XD
Figma
Sketch

TOOLS:

Photoshop
Dreamweaver

PROJECT MANAGEMENT:

Asana
Trello

EXPERIENCE

Jr Web Developer 08-23 - current
LMU Loyola Law School

I manage Loyola Law School's web presence assisting staff, faculty, and students. I provide regular updates to TerminalFour, conduct Drupal migrations, and most recently redesigned and rebuilt my department's LLS Tech page on WordPress, resulting in a 40% increase in site traffic.

Tools: AWS, Adobe DreamWeaver & PhotoShop, CSS, Drupal, Google Analytics, JavaScript, MySQL, Pantheon, PHP, T4, TouchNet, Twig, WordPress

Web Developer Intern 09-22 - 04-23
Push10

I assisted the team with building out new content blocks in WordPress, QA development builds, and provided site maintenance for existing clients. Using SCRUM methods, my last project contributions were made to Amberton University's site redesign & build.

Tools: Docker, Figma, HTML, Gulp, JavaScript, Lando, Pantheon, PHP, SCSS, WordPress

Frontend Developer Projects 09-21 - 04-23

I first drafted responsive designs, and then built projects from ground up using JavaScript and React. Projects include a working Weather & Dictionary app, Facial Recognition locator, and filterable Robo Card page.

Tools: API, Bootstrap, CSS, Figma, HTML, JavaScript, Pantheon, React, SCSS

UX / UI Designer Projects 09-21 - 05-22

I created responsive designs for the target user. I drafted wireframes, created prototype mockups, and iterated those designs with each usability study. Projects include a Cooking, Boutique, and Pet Adoption App

Tools: Adobe PhotoShop & XD, Figma, Sketch
